

LINKAGES

Our university has maintained a strong partnership with several regional, national and international organizations, mostly for research endeavors. Now that we have set our sights towards internationalization, we have begun linking with notable universities especially in the ASEAN region. Our president, Dr. Aleth M. Mamauag, had jumpstarted this move when she visited Maejo University in Chiang Mai, Thailand last Nov 11-15, 2014. She was accompanied by the Director for External and International Affairs, Dr. Edmund Gumpal and Vice President for RDET, Dr. William C. Medrano. And today,, we are fortunate and grateful to have with us the Maejo University President.
